WILL'S CATALOGUE
FOR 1895

Of Northwestern Grown Tested SEEDS.

Hardy Forest and Fruit Trees AND SMALL FRUITS.

OSCAR H. WILL,
SEED-GROWER,
BISMARCK, NORTH DAKOTA.
In presenting this my Twelfth Annual Catalogue of Northwestern Grown Tested Seeds, Trees and Plants for 1895 to former patrons and the general public, I desire to say to all, such as buy Seeds, etc., that in planting anything offered herein, you will be trying no experiment as I offer nothing that has not been given thorough trial, except "Sacaline" the new forage plant which you will find on the third page of cover. This I have not tried personally, but it is highly recommended and I believe parties investing a few cents in a small quantity of few plants, will have no reason to regret it. To the people of the Northwestern States, especially, I desire to say: I have now had fourteen years practical experience in this locality, during which time I have personally tested very nearly every variety of vegetable grown and offered for sale in the United States and offer nothing but what I am reasonably sure can be grown successfully in this latitude. In ordering goods you are at liberty to ask any questions you desire and if I can answer intelligently shall be pleased to do so. I am willing to give my patrons the benefit of my long practical experience which has been in many instances very expensive. I desire to call particular attention to the many valuable introductions which I have made and brought to the highest possible standard of perfection, among which are Improved Beet, Rocky Mountain Squash First-of-All-Peas, Early Dakota Sugar Corn, Gehu and Improved Pride of Dakota Field Corn. Please notice also my list of native Forest Trees and Tree Seeds and small fruits. Currants, Gooseberries and Raspberries are perfectly hardy and produce abundant crops.

Sign your name and give plain address and shipping directions. Every year we receive orders with no signature, often with large sums of money, most of which we are able to trace, but often with much trouble and delay.

**HOW TO SEND MONEY.**

Money can be sent safely either by Postoffice Order, Bank Draft, Express or Registered Letter. If your order amounts to one dollar or upwards, always send by one of the above methods, at our risk and expense.

We are responsible only for the safe receipt of remittances by the above methods. We do not guarantee against loss of currency or stamps sent in ordinary letters.

Every postmaster is obliged by law to register a letter on payment of eight cents, and then you will receive our receipt for the letter by return mail. We accept Postage Stamps the same as Cash for small sums.

**SEEDS POSTPAID BY MAIL.**

Remember that our prices in Catalogue Include Payment of Postage by us on all seeds ordered by the Packet, Ounce, Pound, Pint or Quart. Deduct Eight Cents per Pound and Fifteen Cents per Quart on Seeds Ordered by Express or Freight.

**SEEDS SENT BY EXPRESS OR FREIGHT**

MEANS: That we deliver the seeds to the express or railroad company in Bismarck. The purchaser pays all transportation charges on receipt of goods. No Charge for Bags or Boxes containing trees or seeds from this Catalogue.

**WARRANTY.**

We test all Seeds before sending them out, but in case they fail to grow when tested by purchaser, we will replace them or give value in others, but can in no manner warrant the crop or be responsible for other failures.

$25.00 IN CASH FOR LARGEST YIELDS PER ACRE OF IMPROVED PRIDE OF DAKOTA CORN. $15.00 for the Best Acre. $10.00 for the Second Best Acre.

**CONDITION OF COMPETITION.** Not less than one bushel of the corn must be purchased of me. Each purchase of one bushel or more will contain a blank which must be preserved until after harvest, at which time competitor must fill out certificate with necessary information; same to be sworn to before a notary and forwarded to me not later than Oct. 20th, 1896.

The Prize for the Best Acre of Gehu Corn Raised in 1894 was Won by Mr. A. Ellingson, Rio, Stutsman County, North Dakota, the Yield Being 84 1-4 Bushels or 5,897 1-2 lbs.

**DISCOUNTS ON SEEDS IN PACKETS.**

Purchaser can select seeds in packets only, to the value of $1.50 for each $1.00 remittance. This offer positively does not apply to seeds by the ounce, pound or quart.

**SPECIAL PRICES.**

Market gardeners and others who buy large quantities of seeds will save money by writing for special prices.

**ADDRESS ALL ORDERS TO OSCAR H. WILL, BISMARCK, NORTH DAKOTA.**
Asparagus.

Conover's Colossal. An old, well-known sort. Pkt. 5c; oz. 10c.

Early Golden-Eyed Wax. Superior to any Wax Bean ever offered. It is earlier, vigorous, copious bearer, tender and rich, and has never been known to rust or spot. Pkt. 5c; qt. 45c.

Henderson's Bush Lima. Grows without the aid of sticks or poles, in compact bush form, about 18 inches high, and produces enormous crops of delicious Lima Beans, which can be as easily gathered as the common garden Bush Beans. Is at least two weeks earlier than any of the climbing Limas. Per pkt. 5c; 6 pkts. 25c; qt. 50c.

Improved Dwarf Horticultural. A half Bush variety, very prolific; an excellent substitute for pole horticulture. Pkt. 5c; qt. 45c.

German Black Wax. One of the best varieties; delicious and productive. Pkt. 5c; qt. 45c.

White Wax. Pods yellow and of good quality; white seed. Pkt. 5c; qt. 45c.

Improved Golden Wax. One of the best dwarf beans grown; pods are large, long, brittle and entirely stringless, of a rich, golden wax color, and six days earlier than the ordinary wax; very fine both as a snap bean and a shell bean for winter use. Pkt. 5c; qt. 45c.

White Navy. Pkt. 5c; qt. 35c; peck $1.00; bu. $4.00.

White Wonder. Pkt. 5c; qt. 35c; peck $1.00; bu. $4.00.

Great Northern. (See last page cover.)

Great Northern Bean is an Agricultural Wonder.

Beans—(Pole.)

Extra Early Lima. Does not differ materially from the common sorts, except in earliness; in this it has the advantage of from ten days to two weeks. Pkt. 5c; qt. 45c.

Beet.

Will's Improved Blood Turnip. The blood turnip beet is known the world over as a most desirable variety, and there are any number of strains, good, bad and indifferent. Having grown what I consider the most desirable and carefully selected of all these various stocks, I have for several years been supplying it to thousands of my customers to their entire satisfaction. It is nearly as early as the Egyptian, but surpasses the latter variety in flavor. Color, a rich, dark red; roots, fine grained, globular-shaped, with small top. Free from side or fibrous roots, always remarkably smooth. Excellent for forcing and a very superior keeper, thus making it also desirable for winter use. Cooks sweet, tender and crisp, and in every way may be considered the standard sort for the market and home gardener. Has made good crop 7 weeks from sowing. Pkt. 5c; oz. 10c; ½ lb. 25c; 1 lb. 75c; 5 lbs. $3.75.

Eclipse. One of the best beets in cultivation, especially for market gardening. Pkt. 5c; oz. 10c; lb. 50c.

Long Blood Red. A popular winter sort. Pkt. 5c; oz. 10c; lb. 50c.

Improved Pride of Dakota Corn is the Earliest White Corn in Cultivation.
Beet—(Continued.)

DEWING'S EARLY BLOOD TURNIP. A dark red, turnip-shaped, with large top; flesh, carmine, red, sweet and good. Pkt. 5c; oz. 10c; lb. 50c.

EDMUND'S IMPROVED TURNIP BLOOD. Pkt. 5c; oz. 10c; lb. 50c.

CHAMPION WHITE SUGAR. An improvement on the sugar beets, harder than the other varieties, and containing a greater percentage of sugar. Pkt 5c; oz 10c; lb. 50c.

Beet—(Mangel Wurzel.)

GOLDEN GIANT.—See Third Page of Cover.

GOLDEN TANKARD. In color it is a deep yellow throughout. It is a heavy cropper and is considered indispensable by the best dairymen. It is also equal to the best variety for table use, being very sweet and tender. Pkt. 5c; oz. 10c; lb. 50c.

MAMMOTH LONG RED. A particularly fine stock of Mangel. The roots attain enormous size. Pkt. 5c; oz. 10c; lb. 50c.

YELLOW GLOBE. Roots of large size and globular form; adapted for growing on shallow soil. Pkt. 5c; oz. 10c; lb. 50c.

Cabbage.

NEW EXPRESS. Earliest of all. Produces fair-sized heads in eighty to eighty-five days from sowing of seed. An important acquisition for the market gardener and those who grow cabbage for early market. Pkt. 5c; oz. 15c; lb. $2.00.

Cabbage—(Continued.)

SELECTED EARLY JERSEY WAKEFIELD. Among its merits may be mentioned its large size of head, small outside foliage, and its uniformity in producing a crop. Pkt. 5c; oz. 15c; ½ lb. 50c; lb. $2.50.

HENDERSON'S EARLY SUMMER. This is an old popular sort with market gardeners. It follows the Wakefield. Pkt. 5c; oz. 15c; ½ lb. 50c.

WILL'S SELECTED PREMIUM FLAT DUTCH. Largest of the late varieties; remarkably hardy; a sure header, and for fall and winter, home or market use, has no superior, as it retains its freshness and flavor until late in the spring. This is a highly improved strain, the result of careful gathering from selected heads for consecutive years, and is of superior quality. Pkt. 10c; oz. 25c; ½ lb. 75c; lb. $2.50.

SURE HEAD. Always sure to head, very hard and firm, and of fine texture. It has comparatively few leaves, keeps well and is a good shipper. Pkt. 10c; oz. 15c; lb. $1.50.

FOSSLER'S IMPROVED BRUNSWICK. This has proved to be a most excellent acclimated second early variety. It is low on the stump, heads solid and compact. Pkt. 5c; oz. 10c; lb. $1.50.

MARBLEHEAD MAMMOTH. This is one of the largest varieties of the cabbage family in the world. Under high culture it is compact and hard. Its size is indeed mammoth. Pkt. 5c; oz. 25c; ½ lb. 50c; lb. $2.00.

RED DRUMHEAD. For pickling. Pkt. 5c; oz. 10c.

ACME FLAT DUTCH CABBAGE—Showing its even habit of growth.

ACME FLAT DUTCH CABBAGE.

The ACME is entirely distinct from the Premium Flat Dutch Cabbage, and differs from all other strains of Late Flat Dutch in that it is quicker growing (earlier to mature), hence can be started later. It is extremely handsome in appearance, as indicated by the illustration above, which also shows its low-growing character—the stumps being very short. The well developed heads are true to type and uniform in color, which is an attractive bluish-green. The heads measure about thirteen inches across and weigh from ten to twelve pounds each. The ACME comes very true, and is a sure header; the heads are of good, marketable size, hard, solid, and fine-grained. A very superior cabbage for autumn and winter use. Pkt. 10c; oz. 25c; lb. $2.50.

Will's Gehu 70-day Corn is Earliest of All.
Early Horn. A favorite sort; much esteemed for early summer use. Pkt. 5c; oz. 10c; lb. 75c.

Long Orange Improved. The roots are of enormous size; a decided improvement on the

Celery.

Golden Self Blanching. A distinct variety of sturdy habit and rich golden color. Pkt. 10c; oz. 35c.

White Plume. Inner stalk and leaves are naturally white, and do not require blanching by the old process. Pkt. 5c; oz 25c.

Celery, or Turnip Rooted. Used principally for seasoning meats and soups. Pkt. 5c.

Popcorn.

Queen's Golden. A golden yellow variety of dwarf habit, produces from two to four ears on a stalk. The very best. Pkt. 5c; pint 20c; qt. 55c.

White Rice. Well known old variety. Pkt. 5c; pt. 25c; qt. 40c.

ROASTING
EARS
55 DAYS
FROM
PLANTING.

EARLY DAKOTA SUGAR CORN.

Cucumber.

Early White Spine. An excellent variety for table; a great bearer; a favorite with market growers. Pkt. 5c; oz. 10c; lb. 60c.

Early Cluster. Good for table use but not adapted for pickling. Pkt. 5c; oz. 10c; lb. 60c.

Early Frame. A good variety for pickling and table; of medium size. Pkt. 5c; oz. 10c; lb. 60c.

Boston Pickling. A distinctive variety which has attained a great degree of popularity as a pickle. Pkt. 5c; oz. 10c; lb. 60c.

Improved Long Green. Produced by selection from the Long Green. Vines vigorous and productive, forming fruit fit for the table nearly as early as the shorter sorts. Pkt. 5c; oz. 10c; lb. 60c.

Golden Queen Onion is the Earliest—"Main Crop" Onion in Cultivation.
Egg Plant.

**New York Improved.** The leading variety for market and table; fine quality. Pkt. 10c.

**Endive.**

**Green Curled.** Leaves six or eight inches long, and finely cut and curled. Easily blanched and hardy. Pkt. 5c.

Kohl Rabi.

**Early White Vienna.** Flesh white, tender and succulent when young. The best for table. Pkt. 5c.

**Kale.**

**Green Curled Scotch.** A very useful variety, growing about 18 inches high. Pkt. 5c.

Lettuce.

**Sensation.** This remarkable new candidate appeals not only to the shrewd market gardener but to every owner of a home garden who may desire something extra choice in quality. It was distributed in a small way last season and many hundred of letters have been received from both market and family gardeners, who all agree in pronouncing it the best lettuce they have ever grown for forcing, and equally valuable for growing in the open ground during the hottest summer months. It is a beautiful light yellowish-green color, leaves much blistered on the surface, and of very superior even quality. It has the peculiarity of forming a solid head, even before half-grown. It is the shyster seedler of any lettuce we have ever grown, and necessarily high in price. Prices: pkt. 10c; oz. 40c; 1/4 lb. $1.25; lb. $4.00.

**Denver Market.** Is an early variety of Head Lettuce either for forcing or open ground. It forms large solid heads of a good light green color, and is very slow to go to seed. Very crisp and tender and of excellent flavor. Pkt. 5c; oz. 15c.

**Tomhannock.**

As shown in the illustration, the Tomhannock Lettuce forms a beautiful plant. The leaves grow upright, the upper part of the outer leaves turning out very gracefully, and are handsome and wrinkled. It grows very quickly, is ready to cut early and remains for weeks of the finest quality, being slow to run to seed. Pkt. 5c; oz. 10c; lb. $1.00.

Leek.

**Large London or Flag.** Pkt. 5c.

Water Melon.

**Mountain Sweet.** Fruit, large and oblong; flesh, red, solid and very sweet; a delicious and very desirable standard variety. Pkt. 5c; oz. 10c; lb. 60c.

**Peerless.** The best melon for general use; rind thin, flesh bright scarlet, solid in the center. Pkt. 5c; oz. 10c; lb. 60c.

**Cuban Queen.** One of the largest varieties; flesh bright red, tender and melting. Pkt. 5c; oz. 10c; lb. 60c.

**Phinney’s Early.** A valuable variety for use at the north; hardy and a sure cropper; rind thin; flesh pink, very sweet. Pkt. 5c; oz. 10c; lb. 60c.

**Henderson’s New York.** This is a remarkable summer lettuce, and is also well adapted to forcing. Plants grown in open ground reach the enormous weight of three and four pounds each, and solid as a cabbage head. Pkt. 5c; oz. 15c; lb. $1.00.

**Early Tennis Ball.** Forms a close, hard head, the best forcing sort. Pkt. 5c; oz. 10c; lb. $1.00.

**Curled Simpson.** Leaves very large and form a compact mass rather than a distinct head; superior quality. Pkt. 5c; oz. 10c; lb. $1.00.

**Hanson.** A superior curled heading variety, of large size, sweet, tender and crisp. Pkt. 5c; oz. 10c; lb. $1.00.

Gehu Corn Grows Seven Feet High and the Ears Two Feet from the Ground.
Crop of 1894 American Grown Onion Seed.

PRIZETAKER—The Genuine.

An excellent keeper, of finest flavor, handsome shape and enormous size. The PRIZETAKER grows always to a perfect globe shape, with a bright straw colored skin. Pkt. 10c; oz. 30c; lb. 85c; lb. $3.00.

NEW QUEEN. A remarkable keeper and rapid grower. Sown in May will produce onions two inches in diameter before July 1st. Pkt. 5c; oz. 15c; lb. $2.00.

LARGE RED WETHERSFIELD. The staple variety of the northwest; of large size, deep in color; and an excellent keeper. Pkt. 5c; oz. 15c; lb. $3.00.

EXTRA EARLY RED. Ripens ten days earlier than the above. An excellent variety. Is the main crop of the market gardeners, besides being very early they never run to big neck as is apt to be the case with other varieties in cold wet seasons. Pkt. 5c; oz. 15c; lb. $2.00.

YELLOW GLOBE DANYERS. A very excellent variety of globular shape; flesh white and mild flavored, skin brownish yellow. It is very productive and a good keeper. Pkt. 5c; oz. 15c; lb. $1.80.

LARGE RED GLOBE. A fine globe-shaped onion of superior quality. Pkt. 5c; oz. 15c; lb. $2.00.

WHITE PORTUGAL, OR SILVER SKIN. A handsome onion of mild flavor, but not a good keeper; extensively grown for pickling. Pkt. 10c; oz. 25c; lb. $3.00.

WHITE GLOBE. Similar to the preceding in shape, skin white, mild and pleasant in flavor, and keeps well. Pkt. 5c; oz. 25c; lb. $3.00.

Notice Above What the Greatest Onion Grower in the Northwest Says About Golden Queen.
Parsley.

Parsnip.

Yellow, Blue cleaned also ity.

Francis succession will have reasonable, quality considered, as compared with other various in cultivation, and its fine quality, good keeping qualities and convenient size make it one of, if not the very

best of all, for pumpkin pies. Pkt. 5c; oz. 20c.

Onion Sets.

My crops of onion sets are well matured and uniform in size. Please observe that prices are very reasonable, quality considered, as compared with prices of other houses,

Add 10 cents per quart for postage.

Yellow, Per qt. 20c; peck, $1; bu. $4.

Northwestern Grown Seed Peas, Always Earliest and Best.

AMERICAN WONDER. A cross between the Champion and Little Gem types, a sufficient guarantee of its superior qualities; a most excellent pea; grows ten inches high. Pkt. 5c; qt. 50c.

Will's "First of All"

Has proved itself the earliest Pea in cultivation in this vicinity; besides being early it is wonderfully productive. It is also an even cropper; can be cleaned at two pickings. For succession sow a crop every two weeks from early spring until July or August, and you will have Peas the whole season. Pkt. 5c; qt. 40c; peck $1.50.

McLEAN'S LITTLE GEM. A leading favorite for garden use; a green wrinkled pea, quite early, productive, flavor excellent, may be planted close, one foot high. Pkt. 5c; qt. 50c; peck, $2.00.

BLUE PETER. Habit like Tom Thumb, but more robust, almost as dwarf, and immensely productive. Pkt. 5c; qt. 50c.

Pepper.

RUBY KING. Pkt. 5c.

LARGE BELL, or BULL NOSE. An early variety of mild flavor; rind thick and fleshy. Pkt. 5c; oz. 25c.

Francis J. Ruth, Baltimore, Md., writes: The "First of All Peas" You Sent Me Were the Earliest in These Parts and Yielded Very Heavily.

Pumpkin.

CONNECTICUT FIELD Pkt. 5c; oz. 10c; lb. 35c.

SWEET SUGAR. One of the best for table. Pkt. 5c; oz. 15c; lb. 75c.

SWEET POTATO. A general favorite wherever known. If you want the best pumpkin known for cooking purposes, try the Tennessee Sweet Potato. Pkt. 10c; oz. 15c.

GOLDEN OBLONG. This pumpkin is thoroughly established, distinct from all other varieties in cultivation, and its fine quality, good keeping qualities and convenient size make it one of, if not the very

Okra.

DWARF GREEN. Earliest and best for the North. Pkt. 5c.

Moss Curled. One of the handsomest. Pkt. 5c; oz. 10c.

Parsnip.

HOLLOW CROWN. One of the very best parsnips grown, either for stock or the table. Pkt. 5c; oz 10c; lb. 60c.

IMPROVED GURNSEY. A heavy cropper, roots very smooth, flesh fine grained, and of excellent quality; roots do not grow quite as long as the Hollow Crown, but are of greater diameter and more easily gathered. Pkt. 5c; oz. 10c; lb. 60c.

Parsley.

PRINCE OF WALES. (See last page of cover.)

TELEPHONE. This strong grown, sweet, wrinkled pea is driving out of the local market the common kinds of early hard peas, owing to its strong growth, large handsome, well filled pods and very fine table quality. Pkt. 5c; qt. 50c.

YORKSHIRE HERO. Unsurpassed for sweetness and delicious flavor. Pkt. 5c; qt. 40c; peck $1.50.

CHAMPION OF ENGLAND. A variety possessing merit of high order. Pkt. 5c; qt. 40c; peck, $1.00.

BLISS EVERBEARING. Pods three to four inches in length, containing six or seven rich, marrowy and sugar wrinkled peas of rare excellence. As indicated by the name, it is almost a perpetual bearer. Pkt. 5c; qt. 40c; peck, $2.00.

WHITE MARROWFAT. A favorite marrow sort. Qt. 83c; peck, $1.25; bu. $3.00.

BLACK-EYED MARROWFAT. This, as well as the preceding, is extensively grown as a field pea, hardy and productive. Qt. 83c; peck, $1.25; bu. $3.00.

CAYENNE. Long, slender, pungent. Pkt. 5c; oz. 25c.

Golden Dawn. A magnificent yellow pepper of the Bell class, very productive. Pkt. 5c.
Radish.

EARLIEST CARMINE.

The earliest forcing radish known. It succeeds in the open ground, and takes only 20 to 22 days to form. Pkt. 5c; oz. 10c; lb. 65c.

CHARTER. A very handsome rose-colored radish tapering to white near the tip. It is of good size, very tender and remarkably free from pith. It remains in eating order a long time. Pkt. 5c; oz. 10c; lb. 65c.

WHITE STRASBURG. It is one of the quickest growing of all radishes, both skin and flesh pure white. Pkt. 5c; oz. 10c; lb. 65c.

LONG SCARLET SHORT TOP. The standard variety, Pkt. 5c; oz. 10c; lb. 65c.

SCARLET TURNIP. Excellent for summer use. Pkt. 5c; oz. 10c; lb. 60c.

FRENCH BREAKFAST. Quick growth, very mild and tender. Pkt. 5c; oz. 10c; lb. 60c.

WHITE TURNIP. A summer variety of mild flavor. Pkt. 5c; oz. 10c; lb. 60c.

Felton’s Model Box Radish.

This is an improvement on the popular Philadelphia White Box Radish. It is the earliest and best White Radish for either the home or market gardener. Its handsome form is well shown in the photograph above. It is equally valuable for forcing or growing in open ground at any season of the year. Pkt. 10c; oz. 15c; ½ lb. 35c; lb. $1.40.

BLACK SPANISH WINTER. One of the latest as well as the hardiest of radishes, and is considered an excellent sort for winter use. Pkt. 5c; oz. 10c; lb. 65c.

CHINA ROSE WINTER. The best winter radish in cultivation. Pkt. 5c; oz. 10c; lb. 65c.

Rhubarb. (Pie Plant.)

MONARCH. The most vigorous and productive variety known. The leaf stocks are very numerous, the longer ones being fifteen to twenty inches long and fully one and one-half inches wide. Pkt. 5c; oz. 15c.

Salsify, or Oyster Plant.

LONG SMOOTH WHITE. Pkt. 5c; oz. 10c; lb. $1.00.

SANDWICH ISLAND. A new improved type of this excellent vegetable. It produces roots of nearly double the size and weight of the old variety, and of equally good quality. Although of recent introduction, it has been extensively grown for the markets of the large cities, and in such instances has entirely superseded the old sort. Pkt. 5c; oz. 10c; lb. $1.50.

Spinach.

ROUND THICK LEAF. Pkt. 5c; oz. 10c; lb. 40c.

LONG STANDING. Pkt. 5c; oz. 10c; lb. 40c.

LONG STANDING PRICKLY. Pkt. 5c; oz. 10c; lb. 40c.

Squash.

ROCKY MOUNTAIN. (See Fourth Page of Cover.)

WHITE BUSH SCALLOPED. An early market variety. Pkt. 5c; oz. 10c; lb. 75c.

GOLDEN CUSTARD. The color is a dark rich golden yellow, and for quality cannot be excelled. It grows in bush form, and is wonderfully productive. This is a novelty of real merit; try it. Pkt. 10c; oz. 25c; lb. 75c.

YELLOW BUSH SCALLOPED. A sub-variety of the white bush, principally differing in color. Pkt. 5c; oz. 10c; lb. 75c.

LONG WARTED, OR SUMMER CROOKNECK. Early, productive, and the best for summer use. Pkt. 5c; oz. 10c; lb. 75c.

BOSTON MARROW. A much esteemed variety, coming in about ten days later than the bush sorts; color, rich orange. Pkt. 5c; oz. 10c; lb. 75c.

HUBBARD. A favorite winter squash, and more largely grown as a late sort than any other; of large size, flesh fine grained, dry and of excellent flavor. Pkt. 5c; oz. 10c; lb. 75c.

MARBLEHEAD. An excellent variety, color of shell blue. It is remarkable for its combination of sweetness, dryness and delicious flavor. Pkt. 5c; oz. 10c; lb. 75c.

PERFECT GEM. Small, flattened, slightly ribbed, of a creamly white color, flesh fine grained, dry, sweet, and of good flavor. Pkt. 5c; oz. 10c; lb. 80c.

Tomato.

STRAWBERRY OR GROUND CHERRY. Unequaled for canning preserving and pies. Dried in sugar as raisins or figs, they are unequaled. They have a strawberry flavor, and produce fruit in great abundance. In seasons long devoid of fruit, many esteem them highly. A great curiosity and sell well in market. Pkt. 10c.

Strawberry or Ground Cherry.

Unequaled for canning preserving and pies. Dried in sugar as raisins or figs, they are unequaled. They have a strawberry flavor, and produce fruit in great abundance. In seasons long devoid of fruit, many esteem them highly. A great curiosity and sell well in market. Pkt. 10c.

Mrs. Etta Brown, of Byron, North Dakota, writes, “Have Used Your Seeds Four Years and Found Them Superior to Any Other.”
Tomato.

**New Golden Queen.**

A fine new yellow sort, of first-class quality. It is solid, very smooth, free from ridges, large in size, ripens up evenly, and is very handsome; in fact, by far the most beautiful yellow variety ever sent out. The larger and riper fruits are frequently tinged with red at the blossom end. None is better for preserving or slicing. The handsome golden-yellow slices make a beautiful contrast in a dish with red tomatoes. It has very little acid and the quality is excellent. Try it. Pkt. 10c; oz. 25c.

**Yellow Plum.** A beautiful variety, used principally for pickling. Pkt. 5c.

**Red Cherry.** A small early variety, size and shape of cherry, for pickling. Pkt. 5c.

**Red Currant.** A small and pretty sort, grown for preserves. Pkt. 5c.

**Livingston’s Acme.** Still holds its reputation of being the earliest large red tomato in cultivation, as well as one of the handsomest. Pkt. 5c; oz. 15c; lb. $2.00.

**New Dwarf Champion.** Last season’s trial convinces us that this is one of the most distinct and valuable tomatoes of recent introduction. It resembles no other variety, being of dwarf, stiff habit, so much so as to scarcely need any support. The foliage has a peculiar corrugated appearance, and is of a very dark green color. It is very early and wonderfully prolific. The fruit is of the rich red color, and, while of medium size, is perfectly round and smooth and contains so few seeds that it is really more “meaty” than many Tomatoes twice the size. Pkt. 5c; oz. 25c; lb. $3.00.

**Tobacco.**

**Havana, Imported.** Pkt. 5c; oz. 25c.

**General Grant.** The earliest tobacco in cultivation, particularly adapted for growing in the Northern states. The leaf has extremely small veins of the finest texture, and very elastic. Pkt. 10c; oz. 25c.

**Turnip.**

**Extra Early Purple Top Munich.** Must occupy the same place among turnips that the Eclipse variety does among the beet family—that of being the earliest of all. Pkt. 5c; oz. 10c; lb. 60c.

**White Top Strap Leaf.** This and the preceding are the two best kinds for spring sowing and for garden culture. Pkt. 5c; oz. 10c; lb. 60c.

**Sweet German.** This celebrated turnip is white, sweet, a long keeper, and generally solid until mid-summer. It should be sowed as early as the Swedes. Pkt. 5c; oz. 10c; lb. 60c.

**White Egg.** A very excellent variety, nearly oval, or egg-shaped; flesh firm and fine grained, and of snowy whiteness; particularly desirable for the table; can be sown as late as the middle of August. Pkt. 5c; oz. 10c; lb. 60c.

Rocky Mountain Squash is Earliest and Best and will Keep Two Years.
Turnip.—(Continued.)

Purple Top Strap Leaf. Pkt. 5c; oz. 10c; lb. 50c.

Early Flat Dutch. An early garden variety resembling White Strap Leaf. Pkt. 5c; oz. 10c; lb. 50c.

Rutabaga, or Swedish Turnip—Oscar H. Will's Improved Purple Top Yellow. It has proven itself to be the hardest and most productive rutabaga in this section. Pkt. 5c; oz. 10c; lb. 75c.

White Sweet. A large, white, solid Swede, sometimes called White Russian; also London Extra Swede. Pkt. 5c; oz. 10c; lb. 60c.

Shamrock. One of the finest Purple Top varieties in cultivation; grows with small top and very few leaves; an excellent keeper and good for stock and table use. Pkt. 5c; oz. 10c; lb. 50c.

Carter's Imperial Hardy Purple Top Yellow. A most excellent sort either for table use or feeding stock. Flesh yellow, solid, firm, sweet, and rich. It is a hardly sort, yields heaviy, with no tendency to long necks. Pkt. 5c; oz. 10c; lb. 50c.

Monarch Swede.—(See Cut.)

A new and perfectly distinct variety of Swede. For EARLINESS, QUALITY, and WEIGHT, we claim it superior to any variety in cultivation, producing from two to seven tons per acre more than any other Swede, whilst the large percentage of saccharine matter contained in the root makes it very palatable and nutritious for stock fed on it. "Monarch Swede" is of handsome shape and distinct appearance. Pkt. 5c; oz. 10c; lb. 60c.

Herbs.

Anise, Balm, Sweet Basil, Caraway, Coriander Dill, Dandelion, Horehound, Hyssop, Lavender, Mustard, Rosemary, Penny, Sweet Marjoram, Thyme, Saffron, Sage, Summer Savory, Catnip, Wormwood, 5c, each.

Luffa, or Dishcloth Gourd. Pkt. 10c.

The Dipper Gourd. Pkt. 10c.

Sugar Trough Gourd. Pkt. 10c.

Japanese Climbing Gourd. Pkt. 10c.

Spanish Peanuts.

The Spanish Peanut is the earliest variety grown; pods are small but well-filled, and altogether considered of superior quality. For an early hog food we know of nothing better although the Iverson’s Improved are vastly more prolific, while the Spanish are easier to gather and must be harvested as soon as ripe, or they will sprout. Large pkt. 10c.

Melon Peach.

The fruit grows on vines, the same as melons, are exactly the size, color and shape of an orange, only the skin is smoother, being as smooth as glass. Pkt. 10c.

Garden Lemon.

This novelty is a member of the musk melon family; it bears fruit resembling in shape, size and color, the lemon. Pkt. 10c.

Prices of Seed Potatoes Given on Application.
FLOWER SEEDS WORTHY OF SPECIAL ATTENTION.

ALL FLOWER SEEDS SENT BY MAIL, POSTPAID.

Dwarf Bouquet Aster.

Plants only 10 to 12 inches high, producing large, double flowers resembling chrysanthemums and valuable on account of profuse late flowering. Pkt. 10c.

Aster, finest mixed..............................Pkt. 10c.
Amaranthus, tri-color.......................... 10c.
Ageratum, finest mixed.......................... 5c.

Alyssum Sweet.

Hardy annual, flowering from early spring till killed by frost; and all winter in the green-house if sown in the fall. Pkt. 5c.

Antirrhinum, (Snap Dragon)....................Pkt. 5c.
Balsam—French mixed........................... 5c.
Balsam—Camelia flowered........................ 10c.

Balloo Vine.—Cardiospermum.

Remarkable for its inflated membraneous character and sometimes called Love-in-a-Puff. The flowers are insignificant, but the plant is a rapid and graceful climber. Pkt 5c.

Bachelor's Button, Double.

The flowers of this variety may, considering their form, be compared to those of the Gaillardia. Lorenzoana, the disk flowers having developed themselves into handsome globular flower heads of unique beauty. The mixture offered here not only contains the well-known varieties in white, pink, light blue, light and dark red, but also some quite new shades of color, amongst which the dark red with light blue edges and the white stripped with red and blue. Pkt. 10c.

Canary Bird Flower.

(Tropaeolum Canariense.)

A beautiful climber, the charming little canary colored blossom bearing a fancied resemblance to a bird with its wings half expanded. Pkt. 5c.

New French Canna.

The new French Cannas are continuous bloomers, producing their large showy flowers from early summer until late in autumn. The foliage is luxuriant and varied in color, and the plant dwarf in habit, averaging not over three or four feet in height. Their great merit, however, lies in the large size and dazzling hues of the flowers. Pkt. 10c.

Canna, Indian Shot............................Pkt. 5c.
Candytuft—Mixed............................... 5c.
Candytuft—White............................... 5c.

Empress Coxcomb. (Celosia.)

A very striking variety, producing combs of colossal proportions. The color is a bright crimson, with a rich velvet-like appearance; it is extremely double and well formed. Pkt. 10c.

Convolvulus, (Minor Dwarf)..................... 5c.

Cobaea Scandens.

Although it does grandly outside, it is also a splendid house climber, and will do well running over windows in the house, and will reward the grower with an abundance of beautiful blossoms. In fact, it grows and flourishes anywhere. Pkt 10c.

Unrivalled Collection of Cypress Vine. (Impomoea Quadriloba.)

A most beautiful climber, with delicate, dark green, feathery foliage, and an abundance of bright star-shaped rose, scarlet and white blossoms, which in the bright sunshine present a mass of beauty. Planted by the side of a veranda, tree or stakes, and trained properly, there is nothing prettier. All colors, mixed, pkt. 5c.

---

New Dwarf Margaret Carnation.

A CARNATION THAT BLOOMS THE FIRST YEAR FROM SEED.

The plants are of dwarf, compact and neat habit, branching closely above the ground, and do not require any support. They flower most abundantly throughout the whole year. Eighty per cent. of the flowers are very double, never burst, and embrace a great variety of colors. But the greatest importance is the fact that the seedlings bloom when only three months old, and Carnation flowers can be had all summer and winter if consecutive sowings are made. Pkt. 10c.

Dianthus. (Chinese Pinks).

One of the most useful and desirable plants, and for beauty and variety of colors, and markings cannot be surpassed, ranging from pure white to the most delicate pink and glowing deep crimson. The mixture we offer is a selection from over twenty different strains, and cannot fail to give entire satisfaction. To be properly appreciated they should be seen growing, as it is impossible in our limited space for description to convey in words any idea of their beauty, and in large beds you can hardly find two alike. Pkt. 5c.

Sweet Peas on Page 12.
Oscar H. Will’s Northwestern Grown Tested Seeds.

Double Daisy.

Sow seed very early. The flowers are abundant in early spring, and may be made to flower later by the use of water. Plants can be removed safely even when in flower. The plants should be about six inches apart when set. Choice mixed, per pkt. 10c; 3 pkts. 25c.

Escholtzia.

California Poppy. Hardy, annual, growing about one foot high, bearing a profusion of rich, yellow flowers, about two inches in diameter, making a blaze of color in the sunshine. Pkt. 5c.

Forget-Me-Not (Myosotis) ……… Pkt. 5c.
Four O’Clock ……………… 5c.
Hollyhock, double ………… 10c.
Ice Plant (Mesembryanthemum) ……… 10c.
Lobelia …………………… 10c.

Giant Mimulus. (Monkey Flower.)

This magnificent strain of Mimulus is unequalled for beauty and size of its large and variously colored flowers, some beautifully spotted and others richly blotched with rose, carmine, crimson, etc. Makes beautiful specimens for pot culture, and is not difficult to grow. Pkt. 10c.

New Spiral Mignonette.

Seeds of Mignonette can be sown at any season, so that by having pots prepared at different times a succession of flowers can be secured, and Mignonette adorn a button-hole and perfume the house at all times. Seeds sown early in the garden will give flowers through the summer. Pkt. 5c.

Maurandya Vine ……………… Pkt. 10c.
Morning Glory, Tall ………… 5c.
Portulaca—Single, sometimes called Moss Rose ………… 10c.
Portulaca—Double ………… 25c.
Petunia—Double ………… 10c.
“ Striped and Blotched ………… 10c.
“ Mixed ………… 5c.

Bismarck Pansy.

An entirely distinct and beautiful race, which will recommend itself to all lovers of this popular flower. The plants are vigorous and compact in habit. The flowers are carried well above the foliage. They are of refined form and present a notable difference from those of all known faces, in being of a size hitherto quite unattained in this genus. The flowers are finely formed and the richest shades of color, and have given exceptionally favorable results. Price per pkt. 15c; 2 pkts. 25c.

P A N S Y — G O O D mixed. Pkt. 5c.

Will’s Improved Pride of Dakota Corn Will Mature in Any Locality Where the Sun Shines Two Months.

One Packet Each Named Sorts on This Page 50 cents.

Emily Henderson.

A gloriously beautiful acquisition of American origin. Absolutely pure white, as clear as alabaster and as lustrous as satin. The flowers, of remarkable substance, are borne on long stiff pendules, are extra large, with broad, standards that stand up boldly without reflex or curl.

The plants are robust, compact and branching, producing such a prodigal abundance of flowers; that the plants appear as if covered with snow. From one plant specially cultivated we have cut in one season the seemingly incredibly number of 1035 sprays of bloom.

In earliness it outrivals all competitors by nearly two weeks, and continues a veritable "cut-and-come-again" to the end of Autumn. The fragrance is most delicious and distinct, Pkt. 5c; oz. 15c.

Imperial Mixed. Although the Sweet Pea is as delicately winged as a butterfly, it has the advantage of not wilting like other frail flowers, but will last all day in a bouquet, and has a most delicious perfume—vanilla and cherry blossoms in combination. Aside from the pretty flowers, every part of the Sweet Pea is beautiful, for the vine is graceful, the foliage fresh and clean looking, the pods curious, and the tendrils of interest as transformed organs. To have a display of long-continued bloom, the flowers must be plucked as soon as they begin to fade. If allowed to go to seed, the plants will not produce nearly so many flowers, nor for so long a season; and the more they are cut, the more flowers they will produce. If you want the finest Sweet Peas ever grown, you should give the IMPERIAL MIXED a trial, and be convinced of their wonderful beauty. The flowers are of large size, and in colors surpass any other mixtures of Sweet Peas ever sent out, being rich and gorgeous, ranging from bright scarlet, carmine, maroon, rosy pink, purple, indigo blue, pure white, black striped, laced and shaded, many of them, soft and charming shades, suffused with an entirely different color, resembling frost work, all distinct, beautiful and novel colors. Price per pkt. 5c; oz. 15c; lb. $2.60.
Shirley Poppy.

The large rose, tive Mixed.) colors finer almost ors little of tinted conceivable many are cent, mixture, making gigantic pieces, mixture, and range from blush-white rose, delicate pink, and carmine, through innumerable tints to bright sparkling crimson. Pkt. 10c.

Phlox Drummondii Grandiflora. (Superb Mixed.) — A magnificent new class, with flowers as large as those of the Perennial Phloxes. The colors we offer in our "Superb Mixture" are very positive and perfectly gorgeous in their brilliancy. Their long duration in bloom, combined with their almost unequalled richness of color, renders them of invaluable service in the flower garden, and a finer sight than a bed of Phlox Drummondii is rarely to be seen. For massing in groups or arranging in ribbon lines, there are no flowers obtained with so little care and expense, the colors ranging in every conceivable shade. Pkt. 10c; 3 pks. for 25c.

Phlox Drummondii, common mixed. Pkt. 5c.

Poppy. Finest mixed double and single best ever offered, the most brilliant and also the most delicate tinted making a gorgeous display. Pkt. 5c.

Veronica Hylida Grandiflora. The flowers are of gigantic size—the largest Veronica known—many single flowers being as large as a twenty-five cent piece, while the clusters of bloom are magnificent, and the range of color more varied than any other mixture. Pkt. 20c; 3 pks. 50c.

Phlox Drummondii. (Star of Quedlinburg.)

This novelty is of an extraordinary character. The growth is dwarf, and the habit very compact. The pointed center teeth of the petals (five in number) are four or five times as large as the lateral ones and project beyond them like little spines. The flowers appear to have a star-like form, thus producing a most brilliant effect. Finest mixture of over 20 colors. Pkt. 10c.

Snowdrift Poppy.

Flowers pure white, very double, of large size and perfectly round. This is the very best double white variety yet offered. Pkt. 10c; 3 pks. 25c.

Sweet William. Pkt. 5c.

Tropaeolum, Nasturtium, tall. Pkt. 5c.

Tropaeolum, Empress of India. Pkt. 5c.

Veronica. Pkt. 10c.

Wild Cucumber.

A climber with green leaves and pretty white flowers and bud-like fruits, beset with deciduous barbed prickles. One of the best climbers for verandas, trellises, etc.; never suffers from the heat or being destroyed by insects like so many other good climbing plants, but retains its fresh color until in the autumn. Pkt 5c; 6 pks. 25c.
NURSERY DEPARTMENT.

Prices of stock in this list, except where otherwise noted, include packing securely and delivery on cars here, except 6 to 8 and 8 to 10-foot trees which, if purchaser desires them boxed, must add $1 and $2 per hundred respectively. Ask for discount on 5,000 trees or more in one lot.

Hybrid or Hardy Annual Roses.

GEN. JACQUEMINOT. Fine for cutting or bedding; its buds and flowers cannot be surpassed for beauty or fragrance. Color rich velvety crimson, good grower. Each 3c.

MAD. PLANTIER. Pure white; blooms profusely in spring. Desirable for cemetery planting, as it is perfectly hardy and will thrive under any circumstances. Each 3c.

Hardy Climbing Roses.

PRAIRIE QUEEN. Very free bloomer, with large semi-double flowers of bright rosy-red, sometimes showing faint white stripe at base of petals. Each 3c.

Baltimore Eelle. Flowers pale blush, delicately shaded with carmine and rose. Clusters of large double flowers, very sweet scented. Each 3c.

The above roses should not be confounded with tender, pot-grown plants, as they are large, outdoor grown and perfectly hardy.

Hardy Ornamental Shrubs and Vines.

BULL BERRY or BUFFALO BERRY. A native shrub with silver green foliage, bearing enormous loads of fiery red berries, about the size of an old-fashioned common red currant, and superior for making jelly. A very ornamental bush; also a valuable hedge plant, as it has long sharp thorns. Each 25c; per doz. 2.75. Can be raised from seed. Price per Pkt. 25c. postpaid.

LILAC (Purple). A fine old favorite shrub. Each 3c.

HONEYSUCKLE HALLIANA. A very fine evergreen variety from Japan, a luxuriant grower and will rapidly cover any treliss or unsightly wall. The flowers are white when first open, turning to a rich golden yellow, thus presenting both colors on the same spray. It is a continuous bloomer and very fragrant. Each 3c.

BULL BERRY or BUFFALO BERRY. A native shrub, with silvery green foliage, bearing enormous loads of fiery red berries, about the size of an old-fashioned common red currant and superior for making jelly. A very ornamental bush; also a valuable hedge plant, a s it has long sharp thorns. Per pkt. 25c. postpaid.
Improved Pride of Dakota Corn is the result of careful selection by the writer during a period of 14 years, from the original Squaw or Ree Corn which has been grown in this locality by the Ree Indians for many generations, and up to the time of our first selections was a very insignificant grain of many colors, growing very close to the ground on a stalk about three feet in height. The first improvement was offered as "Improved Ree," and a later very marked improved strain as "Pride of Dakota," and now I offer for the first time the cream of all early varieties of white flint corn, "Improved Pride of Dakota," which will stand more hardship in the way of frost, heat and poor cultivation than any other variety. Ears 10 to 12 inches long; stalk six feet high, and two or three well-developed ears on each stalk. It can be planted as late as June 25th and mature a crop. Pkt. 5c; qt. 30c. postpaid; peck 75c; bu. $2.00 by express or freight.

WILL’S Y. & W. FODDER CORN.

Will’s Gehu Corn, (see next page).

Improved Ree (White Flint Corn). Pkt. 40c; bu. $1.25, by express or freight.

Pride of Dakota, second best White Flint Corn in cultivation, matures as early as Improved Pride of Dakota, but not as strong a grower or yielder, but a very desirable strain. Pkt. 50c; bu. $1.50, by express or freight.

$25.00 for the Best Yields per Acre of Improved Pride of Dakota Corn in 1895.
Broom Corn.

Improved Evergreen. The best for general cultivation; brush firm, of good length and a bright green color. Pound, 10c; peck, 90c; bu. $2.50 by express or freight.

GEH U.

Its the Best!
Its Earliest of all!
Eighty-four and one-fourth Bushels in the Poorest Corn Year in Fourteen Years.
[See second page of cover.]

This is a new hybrid flint corn of a beautiful bright glossy yellow color. I claim it to be the earliest valuable field corn in the world and superior to all other varieties of flint corn in cultivation. Grows about seven feet high, ears two feet from the ground. It will yield from fifty to eighty-five bushels per acre, and mature in sixty-five to seventy days. I have a fair supply of 1894 crop and have fixed the price within reach of all. Don’t miss it. Pkt. 10c; pint 15c; qt. 30c. postpaid; peck 50c; bu. $1.75, bags included.

Will’s Emerald Lawn Grass Mixture.

This is a mixture of choice grass prepared for this latitude. It makes a thick heavy turf by forming a compact growth of short varieties. These, following one another in rapid succession, preserving a rich green lawn throughout the entire season. Will make a beautiful lawn in six to eight weeks.

Sixteen pounds to the bushel.
Per pound 35c. postpaid.
By express or freight, peck $1.00, bu. $4.00.

Prize Acre Gehu Corn 84 1=4 Bushels by A. Ellingson, Rio, N. D.
An improvement on all other Yellow Mangels, being of considerably greater size. Remarkably even in shape, rather elongated, of vigorous growth. Flesh white, firm and sweet. Excellent keeper, yields 40 to 50 tons per acre. Pkt. 5c; oz. 10c; lb. 65c. postpaid. By express, lb. 50c; 5 lbs. 15c per lb.

Is perfectly hardy even in Siberia—Plants arabes in the Indies. Requires no plowing before planting. Needs no cultivation, no manuring, no re-planting. Roots penetrate deep into the soil. ONCE PLANTED, STANDS FOREVER. Endures severest drought with impunity. Grows in poorest soils. Luxuriates in wet lands. Grows where no other forage plant will grow. Young shoots and leaves eaten as a vegetable. Stems and leaves, green or dry, greatly relished by cattle, sheep and horses. MORE NUTRITIOUS THAN CLOVER OR LUCERNE. Gives three and four cuttings per year. PRODUCES 90 TO 180 TONS OF GREEN FORAGE PER ACRE. An excellent soil enricher. CROWS 14 FEET HIGH BY JUNE. Affords shade to cattle in Summer. Protection against storms in winter. Makes a good hedge and a valuable fuel. Water will not drown it. Fire will not kill it. CATTLE CANNOT DESTROY IT. Endorsed by the highest authorities.

Plants 25c each, three for 60c, six for $1.00; Seed, 15c per Pkt.
PRINCE OF WALES PEA.

The Prince of Wales is what might properly be called a main crop Pea, coming in as it does about the time of the Telephone and the Stratagem. Average height of vine, two feet; seeds very large, yellow, wrinkled. The pods are large, although not as large as the two sorts just named; but they will produce more pods from a given quantity of seed than any other sort, and will give a greater number of shelled Peas to the same number of pods, thus rendering it alike valuable to both the grower and the consumer. Try them! Pkt. 10c; qt. $0.45; postpaid. By express, qt. 30c; peck, $2.00.

ROCKY MOUNTAIN SQUASH.

The best winter squash in cultivation; flesh solid and thick, orange in color, dry, and of peculiar rich flavor. It is a sure crop when all others fail. Matures earlier than Hubbard or Marblehead. Pkt. 5c; oz. 10c; lb. $1.50, postpaid.

GREAT NORTHERN FIELD BEAN

The comparative test of this truly wonderful Bean shows it to be ten days or more earlier than any other known variety. It is a well-known fact that the Bean Crop in most parts of the Northwest, the past season, was very nearly a failure, but Great Northern produced a very good crop right by the side of many other varieties which were a very light yield. We do not claim the quality to be any better than other varieties, but its extreme earliness and productiveness together with its wonderful hardiness makes it, we believe, nothing short of an agricultural wonder, which should be in the hands of every farmer. Do not fail to secure at least one packet. Sold only in packets at 25c. each, postpaid.
